OBJECTIVE

Computer Science and Engineering graduate with hands-on experience in UI/UX design and frontend development. Skilled in designing responsive interfaces in Figma, HTML, and CSS, with basic experience in React and growing familiarity with AI-assisted development tools like Cursor and Claude Code. Seeking an opportunity to create user-centered digital experiences while strengthening my design engineering skills.

EDUCATION

SDM Institute of Technology, Ujire , Bachelor of Computer Science and Engineering- CGPA: 7.94	2022-2026
SDM Pre-university College, Ujire , Pre-university- Percentage: 79.5%	2020-2022
Sacred Heart English Medium School, Madanthyar , SSLC- Percentage: 89.76%	2020

TECHNICAL SKILLS

Programming Skills: C, JavaScript

Web Technologies: HTML, CSS, Basic React.js

Tools & Databases: VS Code, Figma, MongoDB, Basic Git/GitHub, ChatGPT, Claude, Cursor IDE, Codex IDE

Design: Wireframing, User flow, Prototyping, Constraints, Components

INTERNSHIPS

Kakunje Software Private Limited ☞, Full Stack/MERN Stack development	02/2026-05/2026
Developed a Manufacturing ERP & Inventory Management System for Skanda Plastics while gaining hands-on experience in React, Node.js, and REST API integration.	Mangalore

Internpe ☞, UI/UX	11/2024-12/2024
--------------------------	-----------------

Designed landing pages, an ice cream newsletter, coffee shop app UI, and an e-commerce website UI using Figma, focusing on user-centric and responsive design.

PROJECTS

Digital Menu Card UI ☞	11/2024-12/2024
-------------------------------	-----------------

• **Description:** Designed a responsive digital menu system for a traditional coffee cafe to improve menu browsing, reduce ordering delays, and streamline communication between customers, waiters, and the kitchen. Created user flows, wireframes, prototypes, and high-fidelity designs in Figma.

Tech Stack: Figma, Google Forms

Plastics Manufacturing ERP and Inventory System ☞	03/2026-05/2026
--	-----------------

• **Description:** Developed modules for inventory management, production tracking, sales, purchases, and account management using the MERN stack.

• **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Postman

Web-Integrated AI System for Bone Cancer Prediction ☞	03/2025-12/2025
--	-----------------

• **Description:** Developed a web-based bone cancer detection system using CNN and transfer learning.

• **Tech Stack:** Python, TensorFlow, Flask, SQLite, HTML, CSS, JavaScript, OpenAI API, CNN, Transfer Learning.

CERTIFICATIONS

- The Complete Web Development Training Courses ☞. [Infosys Springboard]
- Introduction to UI/UX ☞. [Infosys Springboard]
- Design Guidelines and Patterns ☞. [Infosys Springboard]

NON-TECHNICAL SKILLS

- Verbal and Written Communication Skills
- Collaboration
- Continuous learning

ACHIEVEMENTS

- Finalist, ANVESHANA'25-National level Prototype Competition held in IIC-BMSIT, Bengaluru on 28th March 2025 in team☞.
